LEGISLATIVE BILL 870

Introduced by Pansing Brooks, 28; Ebke, 32; Howard, 9; Krist, 10; Morfeld, 46; Quick, 35; Wishart, 27.

Read first time January 05, 2018

Committee:

A BILL FOR AN ACT relating to juvenile facilities; to amend section 83-4,134.01, Revised Statutes Cumulative Supplement, 2016; to provide for room confinement for juveniles as prescribed; to harmonize provisions; and to repeal the original section.

Be it enacted by the people of the State of Nebraska,
Section 1. Section 83-4,134.01, Revised Statutes Cumulative Supplement, 2016, is amended to read:

83-4,134.01 (1) It is the intent of the Legislature to establish a system of investigation and performance review in order to provide increased accountability and oversight regarding the use of room confinement for juveniles in a juvenile facility.

(2) The following and section 2 of this act shall apply regarding placement in room confinement of a juvenile in a juvenile facility:

(a) Room confinement of a juvenile for longer than one hour over a twenty-four-hour period shall be documented and approved in writing by a supervisor in the juvenile facility. Documentation of the room confinement shall include the date of the occurrence; the race, ethnicity, age, and gender of the juvenile; the reason for placement of the juvenile in room confinement; an explanation of why less restrictive means were unsuccessful; the ultimate duration of the placement in room confinement; facility staffing levels at the time of confinement; and any incidents of self-harm or suicide committed by the juvenile while he or she was isolated;

(b) If any physical or mental health clinical evaluation was performed during the time the juvenile was in room confinement for longer than one hour, the results of such evaluation shall be considered in any decision to place a juvenile in room confinement or to continue room confinement;

(c) The juvenile facility shall submit a report quarterly to the Legislature on the number of juveniles placed in room confinement; the length of time each juvenile was in room confinement; the race, ethnicity, age, and gender of each juvenile placed in room confinement; facility staffing levels at the time of confinement; and the reason each juvenile was placed in room confinement. The report shall specifically address each instance of room confinement of a juvenile for more than four hours, including all reasons why attempts to return the juvenile to
the general population of the juvenile facility were unsuccessful. The report shall also detail all corrective measures taken in response to noncompliance with this section. The report shall be delivered electronically to the Legislature. The initial quarterly report shall be submitted within two weeks after the quarter ending on September 30, 2016. Subsequent reports shall be submitted for the ensuing quarters within two weeks after the end of each quarter; and

(d) The Inspector General of Nebraska Child Welfare shall review all data collected pursuant to this section in order to assess the use of room confinement for juveniles in each juvenile facility and prepare an annual report of his or her findings, including, but not limited to, identifying changes in policy and practice which may lead to decreased use of such confinement as well as model evidence-based criteria to be used to determine when a juvenile should be placed in room confinement. The report shall be delivered electronically to the Legislature on an annual basis.

Sec. 2. (1) For purposes of this section:

(a) Juvenile facility means any facility operated by the Department of Correctional Services or by any county that houses youth under the age of majority or a youth rehabilitation and treatment center; and

(b) Room confinement has the definition found in section 83-4,125.

(2) A juvenile shall not be placed in room confinement for any of the following reasons:

(a) As a punishment or a disciplinary sanction;

(b) Due to a staffing shortage; or

(c) For purposes of retaliation by staff.

(3) A juvenile shall not be placed in room confinement unless all other less-restrictive alternatives have been exhausted and the juvenile poses an immediate and substantial risk of harm to self or others.

(4) A juvenile may only be held in room confinement according to the following conditions:
(a) A juvenile shall not be held in room confinement longer than the minimum time required to eliminate the substantial and immediate risk of harm to self or others and shall be released from room confinement as soon as the substantial and immediate risk of harm to self or others is resolved; and

(b) A juvenile shall only be held in room confinement for a period that does not compromise or harm the mental or physical health of the juvenile.

(5) Any juvenile placed in room confinement shall be released immediately upon regaining sufficient control so as to no longer engage in behavior that threatens substantial and immediate risk of harm to himself or herself or to others or not later than (a) three hours after being placed in room confinement, in the case of a juvenile who poses a substantial and immediate risk of physical harm to others or (b) thirty minutes after being placed in room confinement, in the case of a juvenile who poses a serious and immediate risk of physical harm to himself or herself.

(6) Upon release from room confinement, the juvenile must be returned to the general population. If, after the maximum time period allowed for room confinement, the juvenile still poses a serious and immediate risk of harm to himself or herself or to others, the juvenile may instead be:

(a) Transported to a mental health facility upon the recommendation of a mental health professional;

(b) Transferred to the medical unit in the juvenile facility; or

(c) Provided special individualized programming within the general population of the juvenile facility that provides concrete goals that the juvenile understands and that he or she can work toward to be removed from special programming.

(7) Not later than one business day after the date on which a juvenile facility places a juvenile in room confinement, the facility
shall provide notice of the placement in room confinement to the attorney
of record for the juvenile. Not later than twenty-four hours after a
juvenile is transferred from a juvenile facility to another location, the
facility shall provide notice of such transfer and placement to an
authorized parent or guardian of the juvenile and the attorney of record
for the juvenile.

(8) All rooms used for room confinement shall have adequate and
operating lighting, heating and cooling, and ventilation for the comfort
of the juvenile. Rooms shall be clean and resistant to suicide and self-
harm. Juveniles in room confinement shall have access to drinking water,
toilet facilities, hygiene supplies, and reading materials approved by a
licensed mental health professional.

(9) Juveniles in room confinement shall have the same access as
provided to juveniles in the general population of the facility to meals,
contact with parents or legal guardians, legal assistance, and access to
educational programming.

(10) Juveniles in room confinement shall have access to appropriate
medical and mental health services. Mental health staff shall promptly
provide mental health services as needed.

(11) Juveniles in room confinement shall be continuously monitored
by staff of the facility.

(12) The use of consecutive periods of room confinement to avoid the
spirit and purpose of this section is prohibited.

Sec. 3. Original section 83-4,134.01, Revised Statutes Cumulative
Supplement, 2016, is repealed.
